Custom Digital Manufacturing

Customer Referral Program

ICOMold Partner Program

By partnering with ICOMold, you can earn sizeable commissions by referring customers to us who are ready to take their product to the next level. Now that they have their prototype and are ready for production, we can injection mold their parts in volume.

For every injection mold tooling project you refer to us, we'll pay you an 8% commission on the completed project. Here are some examples of how much you can receive in commissions on a single injection mold tooling project.

Commission Examples	
Injection Molding Project	Commission
\$5,000	\$400
\$10,000	\$800
\$20,000	\$1,600

How does it work?

Simply add a page to your website about your injection molding partner, ICOMold. The page does not have to be in your site navigation – it just has to be on your site so you can give the link to your customers who are seeking an injection molding project.

We provide you with the content for the page, including the copy for the page, digital ads that are customized with your logo, and a link to your branded portal in our RFQ system where your customers can get quotes.

That's it! Simply direct your customers looking for injection molding to the partner page on your website, and sit back and collect your commission check!

ICOMold Partner Agreement

This partnership agreement applies to entities who partner with ICOMold to provide sales leads to ICOMold in exchange for a percentage commission on completed injection molding projects. It is valid for one year from the date signed and must be renewed annually. If the agreement expires and is not renewed, there will be no obligation on either party to abide by it, and no new commissions will be paid.

Commission

An 8% commission will be paid by ICOMold to the partner on completed mold projects for customers who are referred to ICOMold by the partner. There is no limit on the number of commissionable mold projects that can be received from any individual customer. Orders for parts are not commissionable. In order for projects to be properly tracked and commissions paid, it is the partner's responsibility to submit all projects through the partner's customized interface in the ICOMold online quotation and project management system. Commission checks will be issued in the month following the quarter projects are completed and paid for.

Expectations

In exchange for the monetary commission, the partner shall actively promote ICOMold as the manufacturer of choice for the services ICOMold provides. Such promotion may include a URL link from the partner's website to the ICOMold website, and a page on the partner's website describing the partnership and ICOMold's capabilities.

ICOMold reserves the right to continue to work with customers referred by the partner, regardless of whether the agreement is current or expired. Once an injection mold has been produced, ICOMold stores and maintains the mold and continues to produce parts off the mold as ordered by the customer. Partner shall have no right to interfere with the ongoing business relationship between ICOMold and the customer.

Assets Provided

- Partner dashboard in ICOMold's online quotation and project management system, customized with partner's logo
- Training and support for using ICOMold's online quotation and project management system
- Content for a page on the partner's website that describes the partnership and links to the ICOMold website, plus a customized ad for the page that features both the ICOMold and partner logo together
- •Partner-created assets may be used to promote the partnership, but any and all assets that display the ICOMold logo or promote the partnership must be approved by ICOMold's Marketing Department
